

Dear Member

The method for paying for entry into club competitions will be different this year in that we will use the computer software to account for the money.

Members can now deposit a minimum of €20 into the cash box, outside the pro-shop, and this will be credited to the individual members account. Payments to your account should be made by Thursday, in any week, to enable your account to be updated in time for the following week-end competition.

Members will be allowed to go into a deficit of €5.00 to allow for instances when they may forget that their balance was 0 on the previous week.

Entry into the competitions will be exactly the same as in previous years, by either swiping your card or entering your GUI number into the computer. The cost of the competition will be deducted from the balance on your account

The Method of entry to the Captains Drive-In, Captain & Presidents Prizes will remain the same as in previous years. As regards the matchplay competitions, the entry fee will be deducted from your account by the committee after the draw for the competition has been completed.

.

In summary

- The minimum deposit is €20
- The cost of each competition (€5) will be marked against a members account when entering the competition through the computer.
- There is no time limit on the balance of the members account.
- When making a deposit, please place the cash/cheque into an envelope and **print** your full name, date and GUI number on the envelope.

THIS NEW SYSTEM WILL COME IN TO OPERATION ON FEBRUARY 3rd.

Best Regards
The Committee.
12th January 2007.
